To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

The conclusion of the second session of the twenty-ninth Parliament of Ontario marks just over a year of activity and endeavour in the life of this Assembly, and also affords an appropriate opportunity for a year-end review of events pertinent to the members of this House and to the people of Ontario.

Three serious natural misfortunes have afflicted portions of our population in recent months. In mid-June, frost severely damaged crops in southwestern Ontario's farm lands. Farmers in Eastern Ontario suffered crop losses as a result of torrential rains in July. Last month's storm and flooding in the southwestern counties of Essex and Kent happily took no lives, but brought great hardship on the residents. Ready assistance was given to those who suffered losses in these circumstances as a result of deep concern by both the Government and people in other parts of Ontario. We commend highly the steadfastness and courage of individual families and local organizations in the face of these difficulties.

At the onset of another winter season, we face the lingering problem of a less than happy employment situation. Accordingly, my government has taken steps to provide for approximately 29,000 jobs at this time in structured and worthwhile activities that will be of value both to the community and to those employed. The greater share of this assistance, amounting to \$35 million, will be allocated to local municipalities for the municipal employment incentive program. Another \$15 million will be spent directly in provincial ministerial programs.

While such pressing needs must be met, government is also faced with the task of not placing too great a burden on those who are able to contribute in larger measure to the community as a whole. Through a new Property Tax Credit Plan announced early in the year, the province will refund \$160 million to property owners and tenants as part of the government's continuing effort to make taxation more equitable. The recently completed Guelph study confirmed that property tax bears heavily on low-income families and pensioners, and offered the assurance that the Ontario Tax Credit Plan will offset this regressive effect by delivering tax relief where it is most needed. The new plan replaces the Residential Property Tax Reduction system which was in effect over the previous four years.

In the interest of accurately determining the province's long-term economic objectives, my government has established a joint Committee on Economic Policy, composed of business, labour and government representatives. This measure was taken in response to the work of the Select Committee on Economic and Cultural Nationalism, as were a series of proposals announced in June for a sound foreign investment policy, and specifically with respect to companies that are within the jurisdiction of this province.

Last spring a complete reorganization of the structure of the government was made with the aim of improving and updating its policy-making and operational functions. My government is pleased with the new organization, which has resulted in a revitalized and flexible administrative system. We look ahead with high expectations for the proposals

with respect to the Legislative Assembly itself, as will be made by the Commission appointed last June or this purpose.

Our achievements in the expanding area of social services include the creation of a new comprehensive Ontario Health Insurance Plan for all health care services, and the provision of extended health insurance in nursing homes and homes for the aged.

In recent weeks my government announced measures to improve the efficiency of our health delivery systems, which, as a result of government responsiveness to public need in this area over the past few years, have provided an adequate network of hospital and health care facilities for the people of Ontario.

The same is true in the field of education, where the construction of facilities over the past decade has kept pace with a rapid rise in school, college and university enrolments. My government is confident our school and university administrators will put all facilities to their best and fullest use, so that scarce funds may be used to best advantage.

At the start of the current academic year, the government provided increased financial assistance through the Ontario Student Aid Program by lowering the requirement for independent students to age 24, a step that will be of benefit mainly to our graduate students and students in the long-term professional programs. An expanded summer employment program provided 18,500 student jobs at a cost of \$21.4 million.

A few days ago the government announced future plans for programs affecting the young people of this province, and especially for student summer employment projects both within government and in the private sector. Coordinating responsibility in this area is being entrusted to a member of the Cabinet, with individual ministries retaining operating responsibility for any youth-oriented programs within their portfolios. The existing Inter-departmental Committee on Youth will act in an advisory capacity to the new Youth Secretariat.

My government is pleased to record progress in a \$10 million province-wide day care project in which it offered to pay 100% of the cost of centres approved for construction during the past winter and completed by July 31, 1972, with support to 80% of costs after that date. As a result of the program, 62 new day care centres are almost completed with planned accommodation for about 3,000 children.

Of these 62 new facilities, 44 are being operated by municipalities, 9 by Indian Bands and another 9 are being run by groups associated with The Ontario Association for the Mentally Retarded.

The Ministry of Community and Social Services shares in changing public attitudes on the need for these facilities. About 880 centres are now in operation across the province, and are caring for an estimated 37,000 children.

Efforts have been continued toward ensuring that all citizens have good shelter and toward reducing the financial barriers, brought about by spiralling prices, that face many families who wish to own a home. In September the Ontario Housing Corporation announced an adjustment to some of its mortgage lending regulations in a speedy reaction to new ceilings for mortgage lending under the National Housing Act. One adjustment now allows 100% of a working wife's total income to count towards total family earnings under provincial lending regulations of the Home Ownership Made Easy program. In addition, the maximum proportion of family income now allowed for principal, interest and taxes in mortgage funding is raised from 27% to 30%. Possible inflationary effects of these changes are expected to be minimal because of the comparatively low cost of houses under the HOME plan and the added fact that the land is leased at cost to the purchaser.

My government fully appreciates the problems that remain to be tackled in this area. To this end, an Advisory Task Force on Housing Policy was appointed in mid-November, to examine the current housing situation in the province. The Task Force, under the chairmanship of Professor Eli Comay of York University, is also charged to report on the appropriate role of the Ontario Government in relation to other levels of government, the business sector and private citizens.

My government has made significant advances with respect to its resources policies. Basically, many of these reflect on the vital issues of land use and land use controls. An agricultural land use study is under way in Southern Ontario to provide guidance for public planning in the preservation of farm land for food production.

As announced just weeks ago, the government expects publication shortly of the report of the Niagara Escarpment Task Force, which will undoubtedly have far-reaching effects on land use planning for other areas of the province as well.

Growing public concern for the ecology has been matched by strong measures by the Ministry of the Environment, ranging from a regulation banning disposable 3-quart polyethylene milk jugs to the province's role in encouraging negotiations that culminated with the signing of a United States-Canada Great Lakes Anti-Pollution Agreement in Ottawa last spring.

The year has not gone by without its share of labour problems and strikes. My government is taking steps to minimize these occurrences in future and the hardships they impose on the workers involved and on the general public. In the construction industry, in recognition of the need for more effective settlement machinery in collective bargaining, a review panel has been established to work for a program of settlements on a year-round basis. In this way the government hopes a measure of peace will be brought to major bargaining negotiations scheduled to take place next year.

The 15th of June was the tenth anniversary of the proclamation of the Ontario Human Rights Code. The event is being marked by a comprehensive overhaul of the code to strengthen and clarify it and bring it up-to-date in terms of the needs and requirements of the many newcomers to our province. Equal opportunity in employment is still the cornerstone of the Ontario Human Rights Code. But above and beyond this, equality of opportunity must be assured to all residents, enabling all to give of their best to the economic, social and cultural enrichment of our province regardless of race, creed, colour, sex, nationality, ancestry or place of origin.

A new trade and travel centre, located in Toronto, was opened by the Ministry of Industry and Tourism in September. The main purpose of the centre is to stimulate Ontario business at home and abroad, Ontario's tourist industry will benefit from the existence of a travel enquiry facility in the centre. Business interests are able to secure information related to industrial programs, tariffs and transportation, as well as information for prospective buyers on Ontario's business capacity and potential.

Two intra-provincial agencies, the Ontario Development Corporation and the Northern Ontario Development Corporation, have been given decentralized lending authority for loans to small businesses throughout the province. Other initiatives in this area include the establishment earlier this year of a \$5 million fund for short-term loans to small and medium-sized manufacturers who sell to foreign markets but are ineligible for federal financing.

Phase III of the Government's Design for Development program as announced in June is geared to future government initiatives in the three following areas: provincial-regional social and economic planning policy; local government reform policy; and provincial-municipal fiscal reform policy.

Ontario is pleased to have been host for the first tri-level conference of federal, provincial and municipal representatives which took place last month as a medium for successful exchange and consultation on a variety of inter-related subjects.

One dilemma facing city governments all over the world is how to come to grips with already existing or potential problems of overcrowding, congestion and stress, and that twice-daily phenomenon of urban life—the rush hour. While it is recognized that the vitality of the city depends on cars and commercial vehicles continuing to play key roles in the overall transportation scene, their unrestricted use during the peak hours of travel to work and back has been making transportation problems critical. Additional and alternative means of moving people and goods must be found.

My government has committed itself to assist municipalities in a far-reaching urban transportation policy for Ontario, based on improvements to

existing public transportation systems in all our cities, and a proposed new intermediate capacity system for the three most populated municipalities.

The proposals include increased provincial subsidies to municipalities for the purchase of buses, streetcars and trolley buses. More provincial resources are also being made available to upgrade and expand computer-controlled traffic systems and maximize the use of existing roadways. In summary, the province has undertaken to direct increased efforts and resources to the coordination of transportation planning among Ontario's municipalities.

The Ontario Government is confident that the implementation of recently announced measures will help preserve in our cities the capacity to ensure a full range of services for the people who live and work in them.

In the pursuit of an ideal of justice as perceived by our society as a whole, Ontarians can indeed be proud of the proclamation, on April 17, 1972, of legislative reforms clearly establishing the rights of the individual against the power of the state. This legislation culminated a long series of reforms since 1964, as a result of recommendations by The Honourable Mr. Justice J. C. McRuer in the Ontario Government's Royal Commission Inquiry into Civil Rights. The all-pervasive implications of the individual's rights in society as interpreted in these reforms are a reflection of the high ideals of the people of this province, and as such stand to be cherished and revered by all Ontarians.

The consumer credit system by which most people in our society are able to obtain some of the goods and commodities that go with a pleasant way of life has left itself open to abuse of the privacy of the individual. My government has therefore introduced new legislation to regulate the giving of consumer reports and govern the disclosure and review of such information. It is also intended to establish controls with respect to an individual's credit history, health and personal character.

This review of some of the achievements of the second session of the twenty-ninth Parliament of this province is evidence of its having been a full and productive one. Other legislation of great significance to the people of Ontario was placed before the members of this Assembly, examined and given approval and assent.

You hold in your charge the affairs of the people of this province who in turn look to you to continue to bear that trust with the dedication and will that you have shown in the past year. I share your hopes for the future of this province and of our country and join with its people in commending your contribution toward the achievement of these aspirations.

In declaring this session prorogued, I would take the opportunity, on your behalf, to express greetings of the season to all the people of Ontario. I pray

so that Divine Providence may guide each of you through a safe and pleasant holiday with your families and with those whom you represent here.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

The Attorney General then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued."

RODERICK LEWIS, Q.C.,
Clerk of the Legislative Assembly
of Ontario.

A party may, at any stage of an action, apply for such judgment or order as he may, upon any admissions of fact in the pleadings, or in the examination of any other party, be entitled to; and it is not necessary to wait for the determination of any other question between the parties. O. Reg. 36/73, s. 14, *part.*

64. A party may, at any stage of an action, apply for such judgment or order as he may be entitled to where the only evidence consists of documents and such affidavits as are necessary to prove their execution or identity without the necessity of any cross-examination, or, where infants are concerned, and evidence is necessary so far only as they are concerned, for the purpose of proving facts that are not disputed. O. Reg. 36/73, s. 14, *part.*

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CITY OF HAMILTON, COUNTY OF WENTWORTH

To Wit:

BY VIRTUE OF A WARRANT, as subjoined, issued by the Mayor of the City of Hamilton, and bearing the date of March 2, 1973 for the collection of arrears of assessments or taxes upon the undermentioned lands in the City, all such being patented lands, I shall on the 14th day of June, 1973, at the hour of 11:00 o'clock in the forenoon, and upon the following day or days until the sale is completed, at the City Hall, Hamilton, proceed to sell the said lands by public auction for the highest amount bid, or such amount as shall be necessary, to pay such arrears, together with all charges thereon, unless the same be sooner paid.

JACK C. JAGGARD,
City Treasurer.

To Jack C. Jaggard, Esq.
City Treasurer

You are hereby authorized and directed to levy upon the lands described in the lists hereunto annexed, the arrears of taxes and water rates due thereon and all costs and charges authorized by Statute in that behalf, and to proceed in the sale for the said arrears of taxes and water rates, and costs as the law directs.

As witness my hand and Seal of the Corporation of the City of Hamilton, this 2nd day of March, 1973.

Mayor.

THE PROFESSIONAL ENGINEERS ACT

O. Reg. 59/73.

Designation of Specialists.

Made—October 27th, 1972.

Approved—February 7th, 1973.

Filed—February 13th, 1973.

REGULATION MADE UNDER THE PROFESSIONAL ENGINEERS ACT

DESIGNATION OF SPECIALISTS

1.—(1) Any applicant for specialist designation who,

(a) is a member;

(b) is currently engaged in the practice of professional engineering or is teaching at a level and at an institution that are satisfactory to the council, a course in any branch of engineering or science, the practice of which constitutes professional engineering and that is recognized by the council or is otherwise engaged at such an institution in an office or position satisfactory to the council, in the Province of Ontario;

(c) has had five or more years of experience beyond membership requirements satisfactory to the council in the field of engineering in respect of which designation as a specialist is being sought; and

(d) has passed the examinations prescribed by the council or has been exempted therefrom, pursuant to subsection 2,

shall be designated by the council as a specialist in that field of engineering.

(2) The council may exempt an applicant from any of the examinations mentioned in clause d of subsection 1 if the council is of the opinion that the applicant has adequate experience, technical competence, academic qualifications and other qualifications.

(3) The council shall forthwith after reaching a decision mail to an applicant, postage prepaid, addressed to his last address appearing on the register, written notice that he has or has not been designated a specialist, as the case may be, as applied for, and where a member has been designated a specialist, the council shall specify the title, term or designation by which such specialist may indicate his specialization in a field of engineering. O. Reg. 59/73, s. 1.

2. An application may be for specialist designation in one or more fields of engineering or for more than one specialist designation within any field of engineering. O. Reg. 59/73, s. 2.

3. The council may appoint a board of specialization to make recommendations to the council with respect to all matters relating to applications for specialist designation and for requalification for specialist designation, as provided for in section 5, and, without limiting the generality of the foregoing,

(a) respecting the standards to be applied;

(b) respecting procedures for, and the make-up of, examinations;

(c) respecting the qualifications of applicants; and

(d) respecting exemption of applicants from examinations. O. Reg. 59/73, s. 3.

4. An applicant shall appear personally before the council or, if a board of specialization has been appointed, the board of specialization, when so requested. O. Reg. 59/73, s. 4.

5. Designation as a specialist shall, unless earlier revoked pursuant to section 9, be valid for a period of five years, at which time application for requalification may be made. O. Reg. 59/73, s. 5.

6. Section 1 shall apply *mutatis mutandis* to any application for requalification as a specialist. O. Reg. 59/73, s. 6.

7.—(1) Any applicant whom the council has refused to designate as a specialist may, within thirty days from the date upon which he receives written notice of such refusal under subsection 3 of section 1, request the council to reconsider his application, and upon receipt of such request the council shall reconsider the application, taking into account such additional evidence, if any, as is submitted by the applicant.

(2) An applicant shall be deemed to have received such written notification on the second business day after it has been mailed to him, postage prepaid, addressed to his last address appearing on the register.

(3) Upon any hearing conducted under this section, the council may make findings of fact by such standards of proof as are commonly relied upon by reasonable and prudent men in the conduct of their own affairs.

(4) The council shall forthwith after reaching a decision on any application for reconsideration mail to the applicant, postage prepaid, addressed to his last address appearing on the register, written notice either confirming the prior refusal of specialist designation or advising that such applicant has been designated a specialist, as the case may be, and, in the latter event, specifying the title, term or designation by which such applicant may indicate his specialization. O. Reg. 59/73, s. 7.

8. Only a member who has been designated as such by the council may take and use the term, title or designation denoting his qualification as a specialist in a field of engineering; use of any term, title or designation that will lead to the belief that he has been designated as a specialist by a member not so designated will constitute improper conduct in a professional respect under the definition of "professional misconduct" in the regulations. O. Reg. 59/73, s. 8.

9. Designation as a specialist may be revoked if the specialist has been found guilty of professional

misconduct under section 25 of the Act. O. Reg. 59/73, s. 9.

10. The council may, from time to time, establish fees with respect to the designation of specialists. O. Reg. 59/73, s. 10.

11. The council shall cause to be published annually listings of members designated as specialists. O. Reg. 59/73, s. 11.

12. Where the council has notified an applicant under subsection 3 of section 1 or under subsection 4 of section 7 that he has not been designated a specialist as applied for, such applicant shall not be entitled to re-apply for such specialist designation for a period of twelve months from the date of such notification. THE CORPORATION OF THE TOWNSHIP OF SARNIA

NOTICE IS HEREBY GIVEN that on behalf of the Corporation of the Township of Sarnia application will be made to the Legislative Assembly of the Province of Ontario at its next regular session commencing in 1973 for an Act authorizing the said Corporation to undertake special drainage works in the Township of Sarnia. These include construction of two diversion channels. One diversion channel will intercept the Perch Drain (also known as Wawanosh Drain) near Blackwell Sideroad south of London Road and divert its flow northerly and easterly to rejoin the said Perch Drain near its outlet into Lake Huron. The other diversion channel will intercept the Pulse Creek Drain immediately south of proposed Controlled Access Highway 402 and divert its flow westerly into the first mentioned diversion channel.

The purpose of the Act is to enable the said Corporation to undertake the drainage works, generally under *The Drainage Act* but with some differences which include:

1. The drainage works may be authorized and carried out in accordance with the engineer's report appended to the Act in two stages without petition, without some of the notices required by *The Drainage Act* and before the time for any appeal under *The Drainage Act* has expired or any such appeal has been decided.

2. Part of the cost of the drainage works may be levied on the rateable property in the westerly part of the Township of Sarnia designated in the engineer's report.

3. The right to appeal the amount of the assessment made in the usual manner prescribed by *The Drainage Act* against the lands in the drainage areas of the Perch Drain and the Pulse Creek Drain and drains tributary thereto in the townships of Sarnia, Plympton, Enniskillen and Moore will be retained but there will be no rights to appeal against the report or the drainage works generally.

4. The said Corporation is given power to acquire lands for the purposes of the drainage works by expropriation or otherwise.

5. The engineer's report establishes the manner in which the future maintenance of the drainage works is to be apportioned and levied against lands in the said drainage areas and in the said designated westerly part of the Township of Sarnia.

Board Docket Number	Date of Application	Area Affected
E.B.R.O. 232	Aug. 31, 1970	"Consumers' " area as at date of application (i.e. not including Erin, Erin Township, Reach Township and Port Perry)

Also, any municipality or other interested person who wishes to oppose any one or more of the applications or otherwise intervene in the proceeding is required, either personally or by registered mail, to file with the Board and to serve upon the solicitors for the Applicant, not later

than the 9th day of April, 1973, a Notice of Intervention stating his interest, the purpose of his intervention, the grounds for objections, if any, and an address for service of documents upon him or his solicitor. An interested person who does not give notice of intervention in accordance with these directions and attend the hearing is not entitled to any further notice in the proceedings. The address for filing with the Board is: Ontario Energy Board, 790 Bay Street, Toronto, Ontario, and the address for service on solicitors for the Applicant is: Messrs. Zimmerman, Grant, Paddon, Bennett & Worley, 199 Bay Street, Toronto, Ontario.

The Board intends to conduct the hearing in several parts and to require the pre-filing by the Applicant of the evidence for each part. The first part of the hearing will be for the purpose of receiving in evidence the detailed information to be derived from the accounts, and other matters of record, that may be required to deal with relevant issues later. The Applicant has been required to pre-file with the Board, not later than the 2nd day of April, 1973, the documents and other evidence for the first part of the hearing and such material will be made available there for examination. The Applicant has also been required to deposit such pre-filed evidence, together with copies of all the applications with the rate schedules attached and a copy of the Order with respect to procedure hereinbefore referred to, at its principal offices at Toronto, Ottawa, St. Catharines, Whitby and Barrie for the period of two weeks prior to the commencement of the hearing, for examination by intervenors or prospective intervenors.

Dated at Toronto this 22nd day of February, 1973.

(e) "subsidizable requirement for a predecessor-board area" means the portion of the subsidizable requirement of the board that is apportioned to the predecessor-board area for 1973, less the portion of the payment in lieu of taxes for 1973 for the municipality that is apportioned to the predecessor-board area, the apportionment in each case being made, in the case of a divisional board, in the same manner as the sum required by the divisional board is apportioned under Ontario Regulation 81/73, and, in the case of a separate-school board, in a manner acceptable to the Minister.

20.—(1) Except in respect of a defined city or a part thereof, a board, other than an isolate board or a board to which Part 5 applies, shall be paid on behalf of each predecessor-board area that is within its area of jurisdiction, a subsidy equal to the excess of,

(a) the subsidizable requirement for the predecessor-board area,

over,

(b) the sum calculated at the mill rate that is the lesser of,

(i) the sum of,

a. the post-subsidy break-even mill rate for 1969 for the predecessor-board area, adjusted by the Ministry where the general level of assessment in the municipality in which the predecessor-board area is located has been raised subsequent to 1969, and

b. the quotient obtained by dividing 350 by the assessment equalization factor for 1973 for the municipality in which the predecessor-board area is located, and

(ii) the sum of,

a. the post-subsidy break-even mill rate for 1969 for the municipality in which the predecessor-board area is located, adjusted by the Ministry where the general level of assessment in the municipality has been raised subsequent to 1969, and

b. the quotient obtained by dividing 150 by the assessment equalization factor for 1973 for the municipality in which the predecessor-board area is located,

upon the assessment for 1973 in the predecessor-board area.

(2) Where a municipality or a predecessor-board area did not have a post-subsidy break-even mill rate for 1969, or where the post-subsidy break-even mill rate for 1969 for a municipality or a predecessor-board area was less than the quotient obtained by dividing 100 by the assessment equalization factor for 1973 for the municipality, such quotient shall be used in clause *b* of subsection 1 in lieu of the post-subsidy break-even mill rate for 1969 for the municipality or for the predecessor-board area, as the case may be.

(3) Notwithstanding subsection 2, in determining under subsection 1 the subsidy for a predecessor-board area for separate-school purposes in which, in 1968, property was rateable for public-school purposes but not for separate-school purposes, the post-subsidy break-even mill rate for 1969 for public-school purposes shall be used in clause *b* of subsection

1 in lieu of the post-subsidy break-even mill rate for 1969 for separate-school purposes.

(4) Notwithstanding subsection 2, in determining under subsection 1 the subsidy for a predecessor-board area for public-school purposes in which, in 1968, property was rateable for separate-school purposes but not for public-school purposes, the post-subsidy break-even mill rate for 1969 for separate-school purposes shall be used in clause *b* of subsection 1 in lieu of the post-subsidy break-even mill rate for 1969 for public-school purposes.

21. The grant payable under this Part shall be applied by the board to reduce the levy from the predecessor-board area on whose behalf it is payable.

PART 8

ASSISTANCE IN RESPECT OF ADJUSTED DEFICITS

22.—(1) A divisional board of education or a county or district combined separate-school board

shall be paid in 1973 a sum equal to $33\frac{1}{3}$ per cent of the adjusted deficits, as at the 31st day of December, 1968, of the predecessor-boards, excluding from such adjusted deficits adjustments to achieve uniformity in accounting for instructional salaries, and such sum shall be applied by the board to reduce the adjusted deficits chargeable to the municipalities or parts comprising the jurisdictions of the predecessor boards.

(2) For the purpose of this Part,

- (a) the amounts of the adjusted deficits referred to in subsection 1 and any alterations thereto shall be as determined by the Minister; and
- (b) predecessor board means a board that was dissolved on the 31st day of December, 1968, and whose area became part of the jurisdiction of the divisional board of education or of the county or district combined separate-school board.

NOTICE IS HEREBY GIVEN that on behalf of the Corporation of the Township of Sarnia application will be made to the Legislative Assembly of the Province of Ontario at its next regular session commencing in 1973 for an Act authorizing the said Corporation to undertake special drainage works in the Township of Sarnia. 1. That Council may by by-law provide for the installation of surface-altering devices in roadways in designated speed control zones to control the speed of vehicles; for the marking of such zones by signs; that such by-law becomes effective only upon approval by the Minister of Transportation and Communications and that where such by-law is in effect, no liability attaches to the Corporation.

2. That notwithstanding any general or special Act, the Council may by by-law passed with the consent of the Mayor appoint a member of Council to act as his alternate and in his place and stand at any meeting which the Mayor does not wish to attend of any board, commission or other body of which the Mayor is a member except the Executive Committee and Council of The Municipality of Metropolitan Toronto or any of its boards, commissions, committees, or the like.

3. That the Corporation may grant by by-law to the widow, until her death or remarriage, and children of R. A. Blows, a former employee of the Corporation, certain pecuniary aid.

4. That *The City of Toronto Act, 1960-61*, Section 3 be further amended so that the the Council be empowered by by-law, subject to the approval of the Ministry of Transportation and Communications, to allow the parking of motor vehicles or any class or classes thereof, on designated highways or parts thereof during specified hours to the owners of such vehicles pursuant to permits issued by an official named in the by-law and to prohibit the parking of all motor vehicles on such highways during such specified hours except with such permit.

5. That *The City of Toronto Act, 1936*, as amended, section 6 (4), be amended so as to delete the provision that loans may be made at no greater interest rate than 6½%, with the result that the interest rate may be as Council may fix from time to time.

6. That *The City of Toronto Act, 1936*, be further amended to provide that Council may pass by-laws directing tenants of dwellings against which an order under the statute has been issued to pay their rent to the City until the order is complied with and for providing that the rent may either be paid to the owner upon compliance or that the rent be applied by the City to reduce any amount expended or to be expended by the City pursuant to the Act and for prohibiting any increase, during the time an order is in effect of the rent in effect at the time of passing of such by-law and prohibiting eviction unless it is ordered by an inspector under the Act.

7. That Council may by-law exercise certain powers respecting the control of demolitions of buildings and structures in the City of Toronto. The general scheme of the proposed legislation is to provide for a "statutory freeze" for a period of six months on demolitions, except for unsafe buildings, in a defined area upon the passing of a by-law designating such area. If, during that period, a study of such area has been initiated for the purpose of recommending policies for adoption by way of amendment to the Official Plan and if Council is of the view that demolitions may prejudice the effectiveness of any such policy, Council may pass a by-law prohibiting in any part or parts of the area the demolition of buildings and structures or class thereof. The "by-law freeze" would last five years from the expiry of the "statutory freeze" or the time when the Official Plan amendment is approved, whichever is shorter. Any general or special Act with respect to standards of maintenance of buildings and by-laws passed thereunder remain in effect except no right to demolish accrues.

Penalties are provided in the amount of \$2,000.00 for every building demolished contrary to the legislation or a by-law passed thereunder. There are other provisions respecting applications for demolition permits.

8. That *The City of Toronto Act, 1971*, Section 16, dealing with agreements respecting Metro Centre lands, be amended to provide that such agreements when entered into may be registered in the appropriate land registry office against the land and that the Corporation shall be entitled to enforce the provisions thereof against the owner and, if registered, against all and any subsequent owners of the land.

9. That Council may pass by-laws from time to time to grant or increase pensions or retirement allowances to the spouses and children of former employees.

10. That the Corporation shall indemnify and save harmless any member or representative of a member of The Toronto Fire Department Superannuation and Benefit Fund Committee and The Toronto Civic Employees' Pension Committee from any loss, costs, damage or expense arising out of or in any way connected with his being a member or representative of such member of either of such Committees and shall defend any such member or representative of any such member in respect of the foregoing.

Ontario Property Tax Credit Information**Definition of Terms****Principal Residence**

'Principal residence' means the housing unit either owned or rented by the individual (or his spouse) which was ordinarily occupied or inhabited by him during the taxation year.

For persons who move, the principal residence includes all housing units (or addresses in Ontario) occupied or inhabited by the person during the taxation year.

Annual property taxes or annual rent must be prorated to cover only the period of occupancy as a principal residence.

Principal residence includes a temporary residence such as a hotel room which was occupied continuously by the individual for all or part of the year, and also includes a mobile housing unit such as a trailer which was used as the principal residence of the individual.

Occupancy Cost

'Occupancy cost' means

- (a) the total property tax paid in respect of the principal residence for the taxation year, or
- (b) 20% of the total rent (excluding any amount paid for meals or board) paid in respect of the principal residence for the taxation year.

Special Situations**Spouse Having the Higher Income**

Where husband and wife reside in the same principal residence, the Ontario property tax credit must be claimed by the spouse having the higher taxable income, regardless of the registered ownership of the principal residence.

Post-Secondary School Students

Where the principal residence of an individual who is a full-time post-secondary school student is in a residence of an Ontario university or college, the occupancy cost in respect of such residence is limited to \$25.

Other Individuals

Individuals eligible to claim the Ontario property tax credit include:

- (a) public housing tenants,
- (b) senior citizen housing tenants,
- (c) life tenants,
- (d) individuals making payments under an agreement for sale contract, and
- (e) individuals who died during the year and on whose behalf an income tax return is filed.

CITY OF TORONTO

SUPPLEMENTARY NOTICE OF
APPLICATION FOR SPECIAL
LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for special legislation to provide:

1. That Council may by by-law provide for the installation of surface-altering devices in roadways in designated speed control zones to control the speed of vehicles; for the marking of such zones by signs; that such by-law becomes effective only upon approval by the Minister of Transportation and Communications and that where such by-law is in effect, no liability attaches to the Corporation.

2. That notwithstanding any general or special Act, the Council may by by-law passed with the consent of the Mayor appoint a member of Council to act as his alternate and in his place and stead at any meeting which the Mayor does not wish to attend of any board, commission or other body of which the Mayor is a member except the Executive Committee and Council of The Municipality of Metropolitan Toronto or any of its boards, commissions, committees, or the like.

3. That the Corporation may grant by by-law to the widow, until her death or remarriage, and children of R. A. Blows, a former employee of the Corporation, certain pecuniary aid.

4. That *The City of Toronto Act, 1960-61*, Section 3 be further amended so that the the Council be empowered by by-law, subject to the approval of the Ministry of Transportation and Communications, to allow the parking of motor vehicles or any class or classes thereof, on designated highways or parts thereof during specified hours to the owners of such vehicles pursuant to permits issued by an official named in the by-law and to prohibit the parking of all motor vehicles on such highways during such specified hours except with such permit.

5. That *The City of Toronto Act, 1936*, as amended, section 6 (4), be amended so as to delete the provision that loans may be made at no greater interest rate than 6½%, with the result that the interest rate may be as Council may fix from time to time.

6. That *The City of Toronto Act, 1936*, be further amended to provide that Council may pass by-laws directing tenants of dwellings against which an order under the statute has been issued to pay their rent to the City until the order is complied with and for providing that the rent may either be paid to the owner upon compliance or that the rent be applied by the City to reduce any amount expended or to be expended by the City pursuant to the Act and for prohibiting any increase, during the time an order is in effect of the rent in effect at the time of passing of such by-law and prohibiting eviction unless it is ordered by an inspector under the Act.

7. That Council may by-law exercise certain powers respecting the control of demolitions of buildings and structures in the City of Toronto. The general scheme of the proposed legislation is to provide for a "statutory freeze" for a period of six months on demolitions, except for unsafe buildings, in a defined area upon the passing of a by-law designating such area. If, during that period, a study of such area has been initiated for the purpose of recommending policies for adoption by way of amendment to the Official Plan and if Council is of the view that demolitions may prejudice the effectiveness of any such policy, Council may pass a by-law prohibiting in any part or parts of the area the demolition of buildings and structures or class thereof. The "by-law freeze" would last five years from the expiry of the "statutory freeze" or the time when the Official Plan amendment is approved, whichever is shorter. Any general or special Act with respect to standards of maintenance of buildings and by-laws passed thereunder remain in effect except no right to demolish accrues.

Penalties are provided in the amount of \$2,000.00 for every building demolished contrary to the legislation or a by-law passed thereunder. There are other provisions respecting applications for demolition permits.

8. That *The City of Toronto Act, 1971*, Section 16, dealing with agreements respecting Metro Centre lands, be amended to provide that such agreements when entered into may be registered in the ap-

propriate land registry office against the land and that the Corporation shall be entitled to enforce the provisions thereof against the owner and, if registered, against all and any subsequent owners of the land.

9. That Council may pass by-laws from time to time to grant or increase pensions or retirement allowances to the spouses and children of former employees.

10. That the Corporation shall indemnify and save harmless any member or representative of a member of The Toronto Fire Department Superannuation and Benefit Fund Committee and The Toronto Civic Employees' Pension Committee from any loss, costs, damage or expense arising out of or in any way connected with his being a member or representative of such member of either of such Committees and shall defend any such member or representative of any such member in respect of the foregoing.

CITY OF TORONTO

SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario at its next session, for special legislation to provide:

1. That Council may by by-law provide for the installation of surface-altering devices in roadways in designated speed control zones to control the speed of vehicles; for the marking of such zones by signs; that such by-law becomes effective only upon approval by the Minister of Transportation and Communications and that where such by-law is in effect, no liability attaches to the Corporation.

2. That notwithstanding any general or special Act, the Council may by by-law passed with the consent of the Mayor appoint a member of Council to act as his alternate and in his place and stead at any meeting which the Mayor does not wish to attend of any board, commission or other body of which the Mayor is a member except the Executive Committee and Council of The Municipality of Metropolitan Toronto or any of its boards, commissions, committees, or the like.

3. That the Corporation may grant by by-law to the widow, until her death or remarriage, and children of R. A. Blows, a former employee of the Corporation, certain pecuniary aid.

4. That *The City of Toronto Act, 1960-61*, Section 3 be further amended so that the the Council be empowered by by-law, subject to the approval of the Ministry of Transportation and Communications, to allow the parking of motor vehicles or any class or classes thereof, on designated highways or parts thereof during specified hours to the owners of such vehicles pursuant to permits issued by an official named in the by-law and to prohibit the parking of all motor vehicles on such highways during such specified hours except with such permit.

5. That *The City of Toronto Act, 1936*, as amended, section 6 (4), be amended so as to delete the provision that loans may be made at no greater interest rate than 6½%, with the result that the interest rate may be as Council may fix from time to time.

6. That *The City of Toronto Act, 1936*, be further amended to provide that Council may pass by-laws directing tenants of dwellings against which an order under the statute has been issued to pay their rent to the City until the order is complied with and for providing that the rent may either be paid to the owner upon compliance or that the rent be applied by the City to reduce any amount expended or to be expended by the City pursuant to the Act and for prohibiting any increase, during the time an order is in effect of the rent in effect at the time of passing of such by-law and prohibiting eviction unless it is ordered by an inspector under the Act.

7. That Council may by-law exercise certain powers respecting the control of demolitions of buildings and structures in the City of Toronto. The general scheme of the proposed legislation is to provide for a "statutory freeze" for a period of six months on demolitions, except for unsafe buildings, in a defined area upon the passing of a by-law designating such area. If, during that period, a study of such area has been initiated for the purpose of recommending policies for adoption by way of amendment to the Official Plan and if Council is of the view that demolitions may prejudice the effectiveness of any such policy, Council may pass a by-law prohibiting in any part or parts of the area the demolition of buildings and structures or class thereof. The "by-law freeze" would last five years from the expiry of the "statutory freeze" or the time when the Official Plan amendment is approved, whichever is shorter. Any general or special Act with respect to standards of maintenance of buildings and by-laws passed thereunder remain in effect except no right to demolish accrues.

Penalties are provided in the amount of \$2,000.00 for every building demolished contrary to the legislation or a by-law passed thereunder. There are other provisions respecting applications for demolition permits.

8. That *The City of Toronto Act, 1971*, Section 16, dealing with agreements respecting Metro Centre lands, be amended to provide that such agreements when entered into may be registered in the ap-

propriate land registry office against the land and that the Corporation shall be entitled to enforce the provisions thereof against the owner and, if registered, against all and any subsequent owners of the land.

9. That Council may pass by-laws from time to time to grant or increase pensions or retirement allowances to the spouses and children of former employees.

10. That the Corporation shall indemnify and save harmless any member or representative of a member of The Toronto Fire Department Superannuation and Benefit Fund Committee and The Toronto Civic Employees' Pension Committee from any loss, costs, damage or expense arising out of or in any way connected with his being a member or representative of such member of either of such Committees and shall defend any such member or representative of any such member in respect of the foregoing.

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
